  - 2.5 Configuration

Description

This extension is not actively maintained but is very practical.

The ClipUpload extension is similar to the MsUpload extension with the exception that it takes the files to be uploaded from the clipboard. It uses "InlineAttachment" to perform its task.

Since version 1.3.0 of January 17, 2017 the browsers Chrome, Firefox and Opera are supported.

Installation

Download

Download the extension from GIT.

```
sudo wget https://github.com/SLboat/ClipUpload/archive/master.zip
```

Unzip

Decompress it via

```
sudo unzip master.zip
```

Rename folder

Rename unzipped folder ClipUpload-master into ClipUpload

```
sudo mv ClipUpload-master/ ClipUpload
```

Activate the extension

Add this into the Localsettings.php with the configuration points as needed

```
require_once "$IP/extensions/ClipUpload/ClipUpload.php";
```

Configuration

This extension provides three parameters available for configuration:

- $wgClipUP_Comment
  Allows to set a standard text added to the files description upon uploading a file.
  Standard value is This file was uploaded from the clipboard ().
- $wgClipUP_MaxFileSize
  Allows to set the maximum size in KB for files uploadable by this extension.
  Standard value is 500
- $wgClipUP_CheckSameFileSize
  Allows to check if the size of a file is the same as for the previously uploaded file.
  Standard value is false

```
require_once "$IP/extensions/ClipUpload/ClipUpload.php";
// Configuration
        // $wgClipUP_Comment="" ;
                // Allows to set a standard text added to the files
description upon uploading a file.
                // Standard value is This file was uploaded from the
clipboard ()
        // $wgClipUP_MaxFileSize=500;
                // Allows to set the maximum size in KB for files
uploadable by this extension.
                // Standard value is 500
        // $wgClipUP_CheckSameFileSize=false;
                // Allows to check if the size of a file is the same
as for the previously uploaded file.
                // Standard value is false
```
