Description

The MsInsert extension adds a dropdown menu to the editor (both the WikiEditor and the regular editor), that allows you to insert into the wikitext the content of any wiki page listed in the dropdown menu. The wiki pages are added to the dropdown menu from LocalSettings.php

Installation

Download

[Download](#) and place the file(s) in a directory called MsInsert in your extensions/ folder.

Activation

Add the following code at the bottom of your LocalSettings.php:

```
wfLoadExtension( 'MsInsert' );
```

Configuration

To add a page to the dropdown menu, add it to the \$wgTemplates array in your LocalSettings.php, like so:

```
$wgTemplates = [ 'Template:Test', 'Main Page', 'Talk:Main Page' ];
```
